MEMORANDUM TO: Chief, Resources Division, ORR

25X1A

ATTENTION : [REDACTED]
THROUGH : Chief, Requirements Branch, Reconnaissance Group, CGS
FROM : Chief, CIA/PID (NPIC)
SUBJECT : Enlargements of Six Thermal Power Plants in the USSR
REFERENCES : (1) ORR Requirement No. C-RR3-80,487
(2) CIA/PID Project No. C 1147-63

1. In response to the above referenced requirement, maximum usable enlargements of six thermal power plants were ordered and identified.

2. In two cases, Zainsk GRES, and Saratov TETs 2, film quality and scale were not sufficient to allow positive identification as thermal power plants. However, the areas outlined on the accompanying photos of these two targets show the reported location of the plants.

3. Film quality over the remaining 4 plants, was good enough to permit identification but not detailed interpretation. These four plants are Kamyshin TETs, Volzhsk TETs, Astrakhan Astragres, and Stravropol TETs.

4. References
